Power • Reliability • Safety
GR-250 SERIES

The GR-250 series is Olympia Electronics' professional emergency lighting solution, designed to deliver exceptional performance in applications where reliability and high illumination levels are essential. Combining advanced LED technology with a robust IP65-rated enclosure, the GR-250 ensures dependable operation in both indoor and outdoor installations.

Designed to provide effective emergency illumination over large areas, the GR-250 offers multiple lumen output options and advanced monitoring capabilities, making it suitable for a wide range of commercial, industrial and public-sector projects. Its durable construction and modern design guarantee long-lasting performance with minimal maintenance requirements.

Whether installed in warehouses, industrial facilities, parking structures, transportation hubs or public buildings, the GR-250 delivers the safety, visibility and reliability required during emergency situations.

PRODUCT HIGHLIGHTS

Robust IP65 protection

Designed for demanding indoor and outdoor environments, offering excellent protection against dust and water ingress.

Flexible lumen selection

Available with multiple lumen output configurations to meet the requirements of different applications and installation heights.

Easy installation

Suitable for wall or ceiling mounting with a practical installation system that reduces installation time.

Long-Life reliability

Engineered with premium components and advanced electronics to ensure long service life and reduced maintenance costs.

**Powerful
 emergency
 lighting for
 demanding
 environments**

DIMENSIONS

MOUNTING METHODS

Wall mounting

Ceiling mounting

High-efficiency LEDs provide strong and uniform emergency illumination, ensuring safe evacuation and improved visibility.

The GR-250 emergency luminaire has been developed to meet the demanding requirements of modern safety installations. Its powerful optical performance and durable construction make it an ideal solution for:

- Industrial facilities
- Warehouses and logistics centers
- Parking garages
- Public buildings
- Commercial premises
- Transportation infrastructure
- Outdoor escape routes

for a safer world!

Environmental Friendly Company

Olympia Electronics SA highlights its commitment to support and promote sustainable development and the principles of Corporate Social Responsibility through a global strategy. The company operates in the field of production of integrated security systems and implements practices aimed at protecting the environment, the addition of social value and the development of corporate social responsibility.
