SPARE PARTS		
TYPE	DESCRIPTION	kg
A-1050	Glue board for RT-22 (single sided) 42x20,5cm	106 gr.
A-1052	Glue board for RT-24 (double sided) 42x20,5cm	116 gr.
A-1024	Protective grid (transparent) for RT-22 & RT-24	393 gr.

ELECTRIC INSECT TRAPS WITH GLUE 220-240V AC					
TYPE	LAMPS	CONSUMPTION	COVERING AREA	IP	kg
RT-70/LED/HACCP NEW	2x4W LED (T8)	9W	40 τ.μ.	IP20	2700 gr.
RT-72/LED/HACCP NEW	2x4W LED (double-sided) (T8)	9W	80 τ.μ.	IP20	3000 gr.
RT-74/LED/HACCP NEW	4x4W LED (double-sided) (T8)	18W	160 τ.μ.	IP20	3700 gr.

SPARE PARTS		
TYPE	DESCRIPTION	kg
A-1055	Glue board (single sided) for RT-70 43x33 cm	106 gr.
A-1056	Glue board (double sided) for RT-72, RT-74 46x32,3cm	116 gr.

INSECT TRAPS ELECTRICAL WITH GLUE HACCP

LED TECHNOLOGY

GENERAL CHARACTERISTICS

The new **HACCP LED** lamps offer complete safety and efficiency in environments that require strict hygiene standards, such as restaurants, kitchens, and food storage areas.

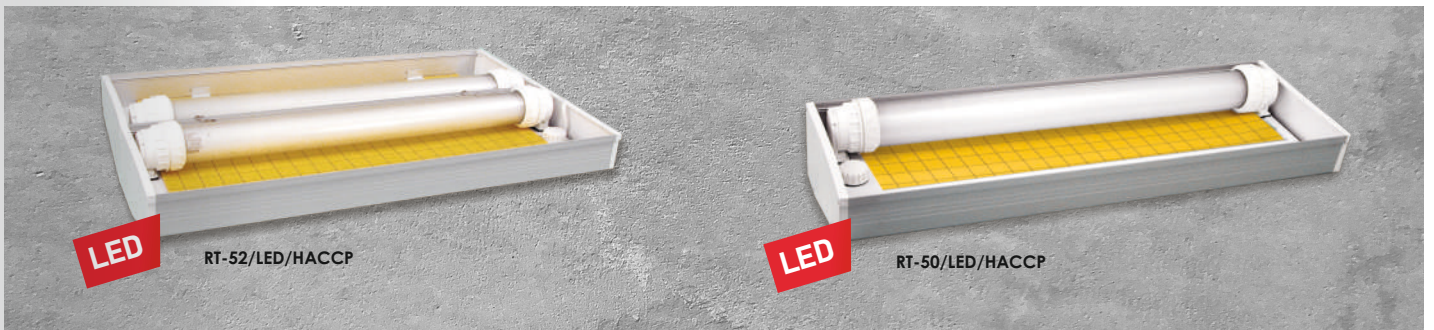

They use UV LED technology to attract insects without the use of chemical substances, ensuring food integrity and high hygiene standards.

The LED lamps fully comply with HACCP requirements, offering long-lasting performance, low energy consumption, and reliable protection for a clean and hygienic working environment.

- **LED** Lamps
- Environmentally friendly devices
- Proven effectiveness in attracting insects through specialized UV lighting, based on research
- Compliant with European HACCP standards
- Insect trap with special adhesive glue
- Safe, odorless, and silent
- Glue trap resistant to UV rays and high temperatures
