

Electronic Thermostats room, wood burner & fire place

Since nowadays there is undeniably the need for extra savings in every home, Olympia Electronics provides energy saving solutions with the room programmable thermostats that have both heating & cooling function, the wood burner thermostat and the energy fireplace thermostat. In addition there is the possibility of 'smart' management of heating function through the application in Android or iOS (concerns the WiFi thermostats).

for a safer world!

That's why I choose the thermostats of Olympia Electronics.

Olympia Electronics thermostats provide the user with flexibility and easy parameter management to optimize heating systems.

What makes them so attractive?

- Elegant design.
- Easy to read, clean display.
- Easy management.
- Easy installation and setup.
- Three operating modes: manual, daily and weekly.
- Day or night operation.
- Choice of presence or absence of a person in the premises. Pressing just one button acts as geofencing.
- Frost protection.
- Boiler activation (available in BS-813, BS-819, BS-821, BS-851).
- Boiler operation with adjustable time (available in BS-851/KIT).
- Differential setting for temperature tolerance between burner activation and deactivation.

iOS

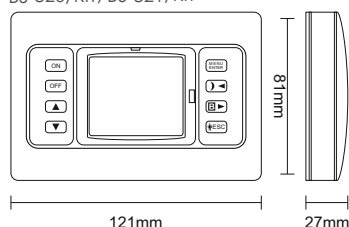

Wireless heating / cooling room thermostats, with 2 AA batteries, programmable on a daily or weekly basis, 10 programs.

- Wireless communication between the thermostat and receiver, so you can place or move the thermostat anywhere in your area.

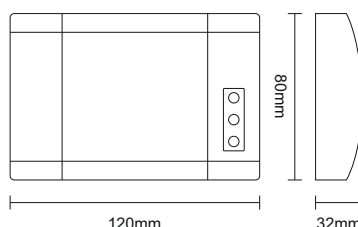

Type	Description
BS-818/KIT	Thermostat with burner output (waterproof IP65 receiver)
BS-819/KIT	Thermostat with burner & boiler output (waterproof IP65 receiver)
BS-820/KIT	Thermostat with burner output (IP20 indoor receiver)
BS-821/KIT	Thermostat with burner & boiler output (IP20 indoor receiver)
BS-818/T	Transmitter for the wireless thermostat BS-818, with 2 AA batteries
BS-819/T	Transmitter for the wireless thermostat BS-819, with boiler output and 2 AA batteries
BS-818/R	Waterproof (IP65) receiver for the wireless thermostat
BS-819/R	Waterproof (IP65) receiver for the wireless thermostat BS-819, with boiler output
BS-820/R	Indoor (IP20) receiver for the wireless thermostat BS-818
BS-821/R	Indoor (IP20) receiver for the wireless thermostat BS-819 with boiler output

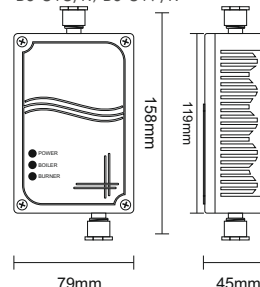

BS-818/KIT, BS-819/KIT,
BS-820/KIT, BS-821/KIT

BS-820/R, BS-821/R

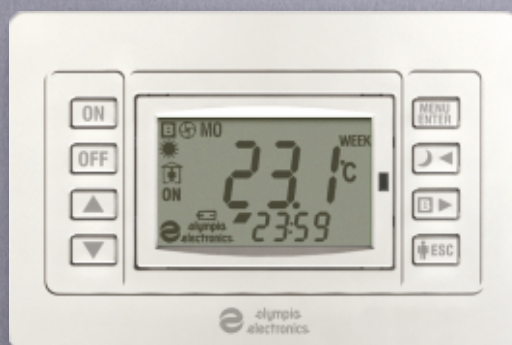

BS-818/R, BS-819/R

Wireless WiFi heating thermostats, with 2 AA batteries, programmable on a daily or weekly basis, 10 programs.

- Wi-Fi connection for remote management via the Android or iOS application.
- Ability to assign and manage more thermostats to one account via the Android or iOS application.
